The New Haven railroad plan to make a special train today to St. Louis for the "day by day" theory. "Every day I get better and better and better."

The railroad proved again today with the very train on which Dr. Coue was traveling to Boston that "Every day, in every way, one trains get later and later."

The famous pharmacist from Nancy left New York on the New Haven's "Owl" train, the night sleeper due at Back Bay Station at 11:30. The "Owl" flapped its wings wearily along the road and straggled into Back Bay Station a few minutes after 9 o'clock, nearly one and one-half hours late.

Dr. Coue's good nature, however, seemed proof against even the railroad's delays. When he alighted at Back Bay station he greeted Boston with a cheery smile.

PLANS NON-STOP HOP ACROSS COUNTRY

San Francisco, Jan. 26.—Lieutenant Claiter K. Vance, U. S. mail pilot, is building a mammoth airplane for an attempt to make a non-stop flight from San Francisco to New York. The machine will have a wingspread of forty feet and will exceed thirty feet from propeller to tail. It will be equipped with a 20-horsepower engine and will carry a ton of gasoline in reserve. The pilot said he would hop off some time in March.

Everybody Drives a Used Car!

Did you ever stop to think that the moment you climb into your new automobile and start the engines to humming you are running a used car? Well, it's so, despite the fact that you paid full price to get "newness."

Men and women who realize this are in the habit of saving usable dollars by purchasing used cars as such. These cars usually have been overhauled thoroughly, so as to be as near "new" as possible. They prove excellent investments.

Turn to the American's Classified Ad. Page from day to day and read used-car wisdom.

COUE HERE; OFFER TO MEND BROKEN HEARTS

BARES HIS DAY BY DAY METHOD

Chemist of Nancy Arrives in Boston for Brief Stay; Sees Mary Garden

Broken hearts can be mended, Emile Coue says so.

In fact, he declared today he could cure them.

The famous chemist of Nancy, author of the "day by day" theory, arrived in Boston today, two hours late, via the New Haven Railroad, and went to the Copley-Flax, where he immediately engaged in looking for a cup of hot chocolate.

A few minutes later he was in an array of newspapers and photographs in his room, still asleep at breakfast.

Said one: "You look tired."

"No, I am not tired. I am very tired," came the reply in measured tones.

CAN CURE DRUNKS.

"Will you treat any one today?"
"No, I will only meet one person today."

This was to be Mary Garden of the Chicago Civic Opera Company, who arrived at 11 o'clock just bringing over with smiles.

"Can you cure drunkenness?"
"Continued on Page 2, Column 2."

Baldwin's "Hick" Talk Prompted by Mellon

Associated Press.—The theories of American criticism of Chancellor Baldwin's Southampton interview, one writer in the Telegraph makes the curious suggestion that the chancellor's "statement might have been inspired by the American Secretary of the Treasury for the purpose of providing inhabitants of the Western States with a more exact knowledge of the situation."

SAW MCGOVERN AND 'BABY DOLL' AT HOTEL

Louis Furry, proprietor of the Washington Hotel on Washington street, South End, testifying at the trial of John T. McGovern, resigned statesman, on statutory charges, declared that McGovern registered on four occasions with "Baby Doll" Baker as man and wife.

The latter signed the register on twelve other occasions. Both signed "Mr. and Mrs. John MacDonald."

William Turner, of No. 61 Hanover street, handwriting expert, said the signature of "MacDonald" corresponded to that of McGovern on his resignation papers.

ARRESTS IN SAVE LIVES WHOLESALE OF SEVEN DRUG PLOT IN FIRE

Federal Narcotic Agents Uncover Vast Smuggling of Narcotics From Canada

An international wholesale dope smuggling plot was disrupted by Federal narcotic officers today when three South End men were arrested and opium valued at \$500 was seized.

Almost simultaneously a police raid on the "biggest most in town," according to the underworld, was caught, red-handed in Cambridge and two old offenders were arrested in Providence.

Acting on information coming from several sources relative to the importation of morphine, opium and cocaine in large amounts from Toronto, William D. Allen, Jr., agent in charge of the New England district, sent investigators to the office of Dr. Benjamin F. Robinson, No. 404 Columbus avenue, South End.

TRACING THE DOPE.

Interviews were held on January 23 relative to the sale of a large amount of morphine. The physician, according to Inspectors Richard A. Kelly, Charles Veilker and Louis Yutrenich, called in Lemuel F. Harris, fifty-five, of No. 16 Claremont park, who said he knew a man who would supply the dope.

Then on January 26 the agent went again to the office and there met Edward C. Stokes, forty-three, of No. 26 Concord street, Roxbury, who arranged another meeting at his house, where Robert H. Stet, forty-seven, former waiter at a Harvard College restaurant, produced three ounces of morphine which were bought for \$100.

Some time later, after questioning Stet, led the inspectors to his room, where they found nine five cent cans of opium each worth \$100.

Stokes, who is a train porter running between Boston and Toronto, is alleged to have bought large quantities of narcotics there and smuggled them to this city, where Stet or Harris or both would take them to.

SMUGGLED IN ON TRAIN.

MYSTERY CALL MADE BY WHITE

Poisoned Bridegroom Had a Long Talk Over Private Phone Before His Death

New York, Jan. 26.—John J. White, while at the Commodore Hotel from January 16 to 17, made a mysterious long distance telephone call over the hotel's private wire to Boston. He did not use the regular hotel phone at any time of his stay. He and his bride were known as "the honeymoon couple" because they had been west out until 4 or 5 p. m., usually returning shortly after midnight. They received no calls while at the hotel and left little mail.

By HERT FORD.

John J. White, twenty-four-year-old Dorchester bridegroom, whose death by poison is being probed by Medical Examiner George Burgess Macnath, left an estate estimated today at from \$30,000 to \$50,000.

His bride of thirteen days, formed Turn Over.

BELGIANS URGE GREATER DRIVE IN GERMANY

Brussels, Jan. 26 (By the Associated Press).—The policy to be pursued in the Ruhr was discussed here today by high officials of France and Belgium.

The conference for France were General Weygand, M. Le Troquer, minister of public works, and M. Herbelot, the French ambassador. The Belgian representatives were Premier Theunis, foreign minister Janssens and M. Devesse, minister of national defense.

The conference, which lasted two hours, is said to have resulted in a thorough accord on the measures to be taken. The Belgian government is declared to have held the opinion that these measures should be on a larger scale.

General Weygand and M. Le Troquer left for Paris immediately.

Dusseldorf, Jan. 26 (By the Associated Press).

Continued on Page 2, Column 2.

ARMED MEN TO GUARD SOLOMON

Rumors of plots to rescue Charlie Solomon, dope king, on route to Atlanta prison, caused Deputy United States Marshal James A. Tipton to declare today: "Any attempt to rescue him will be met with lead." Tipton stated that plenty of men would guard "King" Solomon and that all would be armed. He will probably reach prison within a week. Countless rumors have circulated that Solomon's gangster pals would attack the guards escorting him South.

THE WEATHER

Boston and Vicinity: Fair tonight and Wednesday; slowly rising temperature Wednesday; moderate north to northeast winds. High rises at 7, sets at 453. Moon sets at 3:35 a. m. High tide at 8:15 a. m., 2:30 p. m. Temperatures: Maximum, 15 at 10 a. m.; minimum, 9 at 9 p. m.; average, 12. Light air velocities at 5:25 p. m.

STORK VISITS WOMAN ABOARD TROLLEY CAR

The stork called on Mrs. Bernard P. Lewis of Symon street, Waverley, while she was a passenger on an outward-bound Waverley car from Harvard square. Mrs. Lewis and her tiny new daughter were driven home in a taxicab, after Dr. L. M. Clark, who was making the stop in his auto at the Union, took charge of affairs.

MYSTERIOUS PHONE CALL FIGURES IN WHITE DEATH CASE

FORTUNE LEFT TO BRIDE

Continued from First Page.

by Charlotte Helen McGowan, twenty-two years old, of No. 17 Centralville park, Dorchester, falls heir to this fortune, but he insured her inheritance by a will.

Among the property is a new single house worth \$13,000 which young White built according to his own plans and furnished from top to bottom, as a home befitting his bride. It is located at Brimfield and Brook roads, Milton. White and his bride never occupied their "honeymoon."

SUICIDE, OR ACCIDENT?
Two theories are advanced in official circles. One is that in a fit of hysteria, White committed suicide. The other is that he was pushed over the edge by a woman.

PROBED BY MAGISTRATE
Beyond admitting that the hospital officials reported White's death as due to poisoning and that he had not yet concluded his own medical investigation, Dr. Magrath would not discuss the case. The suicide theory is being gaining weight, but friends and relatives of the young couple insist that it was a case of accidental poisoning.

A new phase was added to the mystery today when municipal records revealed that White had been drawing compensation from the city of Boston on his war service. These records show that "John J. White, of No. 54 Richmond street, Dorchester," was a student at the Students' Army Training Corps at Boston College from October 10, to December 10, 1918.

He applied to the city for military aid in 1920. It was granted April 1, 1920, and he drew \$12 for three months until July 1, 1920, when he was dropped from the rolls after the municipal authorities learned that he had received \$1,000 in a lump sum from the Federal government.

SEE FUND PHONE FEAR
City aid in his case had been approved by the State Aid and Pension Bureau. On July 1, 1920, he was granted vocational training and was admitted to the school of accountancy at Boston College. He was allowed \$100 a month as compensation.

In some circles it is thought that today as he was highly nervous, depressed, and lonely, White may have been involved in the veteran's fund in some way.

Investigation and that this, coupled with his financial illness, may have prompted suicide. This theory, however, was disproved by the records, which appeared to be entirely regular.

HURT AT HOCKEY
White's injury to his spine originated from an accident on the ice while he was captain of the Holy Cross college hockey team. His accident was said to have been aggravated by his war service.

His death reveals a grim struggle to be cured of tuberculosis of the spine in order that he might realize his ambition to become the husband of Charlotte McGowan, his school day sweetheart.

With this end in view he underwent a third major operation last summer. It was performed by Dr. Palmer, the eminent Boston surgeon. It seemed to improve him so much that he started out with renewed enthusiasm to play with Charlotte.

His illness in Milton, Mass., was said to have been caused by a fall from a horse. He was reported to have been involved in the veteran's fund in some way.

Investigation and that this, coupled with his financial illness, may have prompted suicide. This theory, however, was disproved by the records, which appeared to be entirely regular.

HERE'S M. COLE GOING INTO ACTION IN BOSTON

"I am no miracle man. Simply M. Cole of France. I never healed anybody. I merely teach what we can do to heal ourselves."

"They can because they believe they can. We are all doctors of suggestion."

"I bring no challenge to medicine or surgery and make no claim in contravention to the basic laws of religion."

"Stop speaking and thinking such words as 'difficult,' 'impossible' and 'can't.'"

"If you want to get well, believe that you are getting well."

BELLINI HURLS CHALLENGE

Continued from First Page.

occurred back of the breaking of his engagement to the Baron's daughter.

He asks the American to address this open letter to the Baron: January 28, 1923 To the Baron Ferdinand von Schöller, Brookline, Mass.

Dear Baron—My attention has been directed to an account in (1) Boston American in which are related the alleged facts of my relationship of your daughter.

I am impelled to remark that this account, as it appears, while it relates some happenings, consists of only half truths.

Inasmuch as the public has been interested in the matter, I deem it my duty to set the record straight.

My relationship with the Baron's daughter is a matter of common knowledge. I am not ashamed to admit it.

If you fail to do this, I have decided to reveal the true facts of the case myself. I am simply following up with documentary evidence to back up everything I may find it necessary to present.

I ask that you renounce the Boston American with all the facts, and nothing but the facts. You know I have always desired FACTS.

Unless you do this at once, I shall be forced to do it. With assurances of my utmost respect and consideration, I am, G. UMBERTO BELLINI.

IS SECOND VALENTINO. Having followed himself of this challenge, Captain Bellini set forth his reasons for the breach between the art critic known as Frank Dane and the publisher of El Pungolo.

"These men desired to come to an understanding of the facts of the case, but they failed to do so."

"I am not a miracle man. Simply M. Cole of France. I never healed anybody. I merely teach what we can do to heal ourselves."

"They can because they believe they can. We are all doctors of suggestion."

"I bring no challenge to medicine or surgery and make no claim in contravention to the basic laws of religion."

"Stop speaking and thinking such words as 'difficult,' 'impossible' and 'can't.'"

"If you want to get well, believe that you are getting well."

ARREST THREE BELGIANS URGE IN DRUG PLOT GREATER DRIVE

Continued from First Page.

South End and Roxbury being places, we are the drug was distributed in varying amounts to peddlars.

The arrests today and the statements of the Boston American that enormous quantities of drugs were being smuggled into the country from Canada by rail road passengers and employees.

A search is now on for a large cache of morphine which Henry J. Kenny, twenty-five, and married, of No. 217 Brookline street, Cambridge, is believed to have hidden. He was arrested for the sale of thirty-five grains of the drug for \$1.

Narcotic officers may have been dealing with New York drug whole salers who have been arrested here recently to him. They charge that he is regarded as one of the largest peddlars in Greater Boston among addicts.

Agents H. J. O'Malley and Edward F. Riley arrested Joseph Brown of Fountain street, Providence, for selling one dozen of morphine for \$3. This is his second arrest in a comparatively few days.

They also took in custody Joseph Anthony Brown of Atwell street, Providence, for the same offense.

LEAPS TO CHIMNEY AS LADDER FALLS
Frank Brunell, a rigger, of No. 2 Holyoke street, Malden, made a successful leap for life when a ladder broke in two.

Another ladder was rigged and he was rescued. Brunell was at the top of a city for extension ladder when it unlocked, and the upper portion slid downward.

SOVIET GRANT TO U. S. OIL FIRM REPORTED
London, Jan. 28.—The Soviet government has given an American firm, the Sinclair Oil Corporation, a concession at Baku, with the right to construct two harbors, so to say. If he will not tell them anything to a dispatch to the Daily Mail.

"To get the formal permission of my father I came to America. The engagement was broken in August. I cannot now tell you the reason. That is for Baron von Schöller to say. If he will not tell them anything to a dispatch to the Daily Mail."

"I am not a miracle man. Simply M. Cole of France. I never healed anybody. I merely teach what we can do to heal ourselves."

"They can because they believe they can. We are all doctors of suggestion."

COLE ARRIVES IN BOSTON FOR LECTURES

Continued from First Page.

quired a reporter of known capacity. "Drunkness is easily cured when the patient desires, but I have had very few applications. In fact, there has been but one man."

It developed that M. Cole believes that any ailment can be cured by his process if one gives his formulae instilled into the subconscious mind.

ON SUB-CONSCIOUS MIND.
These are it is going and every day in every way I am getting better and better.

They should be repeated over and over until they are impressed on the sub-conscious mind and in a long time enough to reach the ear, not just mentally.

Mr. Cole does not say how many times would be necessary to impress on the sub-conscious mind a cure is positive.

And impressing the formulae is simply a question of repeating the words over and over until they are impressed on the sub-conscious mind.

ANYONE CAN CURE.
M. Cole emphasized several times: "I am not a doctor. I am only a teacher. Any one can bring about a cure after I teach him."

The distinguished visitor greeted the crowd-bitten city with a smile, even though his first view was the dingy lower level of Back Bay station.

With him were E. S. McQuinn, magazine publisher; Marjorie Mitchell Cappon, who was in charge of the New York clinic; and Kendrick, conductor of the Coss American tour.

Reaching the street the group paused long enough for a battery of cameras to snap and movie men to "do their stuff."

For as he crawled in to his berth on the New Haven stage, en route to this city, he was heard to murmur hopefully what sounded like:

"I am a man of only one idea. I am the small and wisened exponent of personal faith."

That, as the world has learned in the last few months, is "The Way," in every way, I'm growing better and better."

And no one can doubt the faith of the lecturer in his own formulae even in desperate cases.

For as he crawled in to his berth on the New Haven stage, en route to this city, he was heard to murmur hopefully what sounded like:

JESSE MURPHY, FREED OF DEBT, STARTS DEER ISLAND TERM

JOKES WITH CHARLES ST. JARVIS

Declares Short Stretch Down the Harbor is "Only Sleeping Time" to Him

Jesse Murphy, acquitted of the murder of Ordway R. Hall and Edward T. Foley, left for Deer Island today to do a six-month "stretch" he has owed the State since his escape from Rutland in 1914.

As Murphy ate his breakfast in the Charlestown jail he laughed and joked with his guards. Asked about the six months "stretch," Murphy replied in the phrase of the underworld, "that's only sleeping time."

Murphy dropped his swagging attitude for the first time when the verdict was read. After finding his father in his arms, Murphy leaned on the iron grating of the prison dock and wept. He was quoted by his attorney, William Schorran, "The stretch and narrow for you after this, Jesse," said Mr. Schorran. "You said Murphy."

Murphy's plea to the jury was dramatic and eloquent. He demanded acquittal or death in the chair. He would accept no compromise. "Mr. Foreman and gentlemen," he addressed them. "You said my life is in the palm of your hand. If after a careful, conscientious deliberation, you feel satisfied that I ever had any connection with those two cold-blooded murders, which God forbid, I ask no compromise; there is to be no alternative; I ask you to bring in the verdict of homicide in the first degree."

"But you must vote to acquit me because it is ordained by God's decree and God's will. Let that always be done, gentlemen. I am innocent."

STATES OF ROLLINS BOYS.

Both District Attorney Thomas C. O'Brien and Assistant District Attorney Henry C. Fleming declined to comment on the verdict of the jury in the Murphy case and the effect the trial would have on the careers of George and Charles Rollins, who stand convicted of the two crimes.

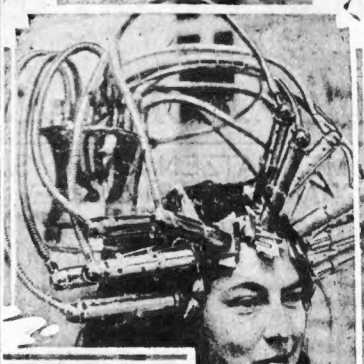

The Boston American learned, however, that a conference of attorneys would be called within the next ten days in the case of George Rollins, now awaiting sentence to the electric chair for the murder of Ordway Hall. Only the Governor and his Council can take action in the case of Charles Rollins, now under a life sentence for the murder of Foley.

MOANS FOR A NEW TRIAL IN THE CASE OF CHARLES ROLLINS.

The situation in the Murphy trial without parallel in Massachusetts court annals. The District Attorney, represented by Mr. Fleming, sought the conviction of Murphy for crimes which other men stand convicted of. In seeking this conviction, Mr. O'Brien's statement to the contrary notwithstanding.

WILLIAM BROWN HALL JESTS THAT HE WOULD HAVE BEEN A GOOD DEAL WISER IF HE HAD BEEN A GOOD DEAL WISER.

MODELS AT BOSTON'S HAIR STYLE SHOW

ONE OF THE MODELS. Jeannette Hunter Peeling, displaying a new wrinkle in latest style coiffure. She looks like a full figure in the picture, but you'd want to see the coiffure when that apparatus is removed.

Shades of Priscilla. The women are going strong for orange and red, and shades of color in their hair coiffures.

It's a fact! Flocks of charming young models are parading about Horticultural Hall exhibiting all the new beauty fads at the third annual Hair Style Show, given by the Lady Hair Dressers' Association.

And chief among the innovations they are showing today are black and white and powdered coiffures that are piled up high and are chiefly marked by puffs and curls and other bonjour mysteries. The new fruit line, ranging from a pale melon to a deep tangerine and the idea back of it, say the beauty experts, is to eliminate that "artificial painted look." The well known model was continuous in popularity with variations.

THE next chapter in the sensational divorce suit will be unfolded on Monday, February 5.

LOU CAUGHT BY SLEUTHS

Continued from Third Page.

basket containing groceries and took it from me.

"After that I saw her often, walking on the beach with Mr. Tellegen, both in bathing suits. She had a cute way of skipping away from him and waiting until he caught up with her again."

FARRAR HELD.

The only "others at the hearing were Arthur E. Schwartz, Tellegen's lawyer, and Alvin Untermyer, representing Miss Farrar, who sent her secretary, Miss Marjorie Kettich, to notify Referee Mahoney that she was too ill to attend.

BRITISH SPIT ON U. S. DEBT INTEREST

By International News Service. London, Jan. 30.—The British Cabinet met today to consider the Anglo-American debt issue and listened to an appeal from Chancellor of the Exchequer Stanley Baldwin that the debt terms of the United States Funding Commission (providing for a 3 per cent. rate) be accepted. Baldwin said that the government could not afford to be "bitten" by the division of opinion among the ministers. The "disbards" declared they would not consent to the American terms, while Premier Bonar Law was uncertain as to his own future course. He told colleagues that he was calling the meeting with an open mind. Law is known to hold the opinion that the American terms are "too severe" for England in its present financial difficulties, but he is being told daily by other ministers, by bankers and by influential newspapers that the best course is to accept the terms because they are the best Britain can get. Financeurs are urging acceptance on the ground it will assist business. They fear rejection will depress the value of the British pound.

The Philip Lloyd-Greaves, secretary of the overseas trade department, is using every effort to bring about a compromise between the conflicting factions.

It is possible that, before a decision is reached, formal queries will be sent to Washington to ascertain if the United States will consent to a postponing of debt funding operations if Great Britain accepts the present terms. These terms call for a 3 per cent. interest rate for ten years with an increase of 1/2 of 1 per cent. subsequently and a sinking fund.

PURSE OF GOLD FOR SENATOR FRANCIS

Senator William J. Francis of Charlestown was tendered a complimentary banquet by upwards of one hundred friends at the Boston City Club and presented with a purse of gold as a token of the esteem in which he is held by them. The presentation was made by Judge Charles S. Sullivan of the Charlestown Municipal Court, an old-time friend of the Senator. Senator Francis, who is entering upon his first year in the upper branch of the Legislature, has served four years in the House of Representatives.

WOMAN DIES OF BURNS

NIECE BADLY HURT

Mr. Josephine Griffin, sixty-five-year-old South Boston woman who was burned at No. 292 Silver street, died at the Carney Hospital of her injuries. Mrs. Annie O'Brien, her niece, who suffered severe burns in an attempt to save her aunt, is expected to recover.

THE FIRE RESULTED WHEN MRS. GRIFITH WAS PREPARING A HOT DRINK FOR HER NIECE, WHO WAS ILL. IN SOME MANNER MRS. GRIFITH'S CLOTHES BECAME LIGHTED FROM THE FLAME OF A GAS STOVE IN THE ROOM.

T. W. O'ROURKE OF DORCHESTER IS DEAD

Thomas W. O'Rourke, fifty-nine years old, of No. 11 Pleasant street, Dorchester, died at his home after a short illness. His death was caused by pneumonia contracted from a bad cold. Mr. O'Rourke was very prominent in Boston's political life, while ago, being secretary to several mayors. He was affiliated with many organizations including the E. C. M. C. O. P. and the Boston Charities Assembly. Mr. O'Rourke is survived by a son, Thomas W. O'Rourke, Jr., a Boston lawyer.

Larz Andersons Close "Weld" for Sojourn in Bermuda, Says Betty Alden

By BETTY ALDEN.

ONCE more is Weld—that magnificent Brookline estate—without its master and mistress. This time the Larz Andersons have bid themselves to balmy Bermuda, where they plan to remain for several weeks at the Princess Hotel. Later on, I believe, they are to spend some time at their Washington home, where they have entertained many a notable of the capital's social, political and diplomatic life.

The unassuming authors of "Presidents and Pies"—Mrs. Anderson has written a number of widely-read books—expressed considerable admiration for the clever way in which she and Mrs. Clarence Edwards managed the flut, the restaurant of the Atlantic City Boardwalk Exposition. Boston is always glad to have the one-time ambassador to Japan and his charming wife stay at Weld, and the Andersons are noted for their genial hospitality. The one-time Isabel Perkins is a petite, dapper, and woman, with a decided penchant for simplicity in dress and manner.

SPARKING OF WASHINGTON—

I understand that Mrs. Constance Gardner Minot, after a very long sojourn at her bride's crossing place, has returned to Winter home at the capital. It was about a week ago that the granddaughter of Senator Lodge received her divorce from Gratton Minot of Boston.

Mrs. Minot's place at the Capital Crossing is known as "Albany," and last Summer she gave a number of entertainments there in honor of various figures in the capital's diplomatic circle.

THIS accompanying picture shows Mrs. Freddy Busk (Harriet Pessenden) as she appeared at a recent charity function.

The second daughter of the Sewall H. Pessenden is dressed up to represent a dressing table. Which reminds me that I saw the popular young matron this morning, looking as smart as ever, in a short squirrel fringed, a simple little black chaquet with a squirrel ornament completing the costume.

When Harriet Pessenden and Freddy Busk were married a year ago, after they were on a trip around the world, later making their home in New York City, they had many friends who rejoiced to hear that they had bought a home in Chestnut Hill. Everyone of course, is still talking about another marriage in the Pessenden family, taking place only last Saturday, which transformed Mrs. Rose Pessenden into the bride of Edward L. Bigelow, son of the late Foster Bigelow of Chestnut street.

THIS afternoon at 2:30 comes the last of the three lectures given by Betty Bois, in which to many society women have been interesting themselves.

The subject of the lecture—taking place at Mr. Robert Farley Clark's home on Chestnut street—is "The Heavenly Visions of Saint Teresa." M. Bois, who is president of the French Society for Psychical Research, will discuss the power of prayer and the new spiritual ecstasy.

MAN DIES IN FIRE SET BY OWN PIPE

Brighton, Vt., Jan. 30.—A man set by his own pipe caused the death of Michael Fleming, fifty years old, an employee of a firm of coal dealers and former brakeman on the Central Vermont Railroad. The house of sixteen families in Elliott street was endangered in the fire. Fleming had been smoking in bed, it was determined in an investigation today. A spark dropped from his pipe and started flames in the carpet.

MRS. FREDERICK W. BUSK

AUNT TO GIVE BLOOD TO SAVE LITTLE GIRL

Mrs. Beattie Goldman, an aunt of Sarah Nelson, nine years old, of No. 401 Beach street, Haver, is today ready to give her blood in an operation to save the girl's life. More than 15 volunteered to assist with their blood in the operation. Mrs. Goldman's blood was found to be similar enough to that of the child's to indicate that the transfusion will be effective.

FRENCH TO STAY IN GERMANY FOR YEARS, ADMITS LUDENDORFF

PRaises TANKEE TROOPS

Sees No Hope of Help From Russia; Says Paris Bosses Europe

Munich, Jan. 29 (By International News Service).—"Russia to the unknown quantity in Europe, but certainly we cannot expect any support from that quarter."

This statement was made here today by General Erich Ludendorff.

"Unless a miracle intervenes, you will see the French in the Ruhr a year hence, maybe several," he added. "I have not the slightest hope of English or American intervention."

The correspondent informed the famous soldier he was leaving for the Ruhr within an hour on a special train and invited him to go along.

Ludendorff smiled and raised both hands as though in protest. "No sir, thanks," he exclaimed. "If I should go to the Ruhr, my enemies would immediately use the cry that I was about to lead the German citizens of the Ruhr against the French. God knows, I am not a man suffering enough. I want to lighten, not increase their burdens and hardships."

PRaises AMERICANS.

Ludendorff, referring to the departure of the American troops, said: "We do not like any foreign soldiers upon German soil, but of all those who have been in our country since the war, your boys have been the best behaved and the best sports. There was nothing mean or malicious about the Americans. They are not the kind to kick an enemy when he is down and helpless."

"And that reminds me of an incident. Not long ago, Major-General Henry T. Allen, commander of the American army of occupation, asked me through a mutual friend what 'Nationalist' Germany thought of the Americans' departure. I sent back this word: 'For God's sake do not take the American soldiers away.'"

FRANCE DEWIES ALLIES.

General Ludendorff twisted his monocle nervously and went on:

"But, as a matter of fact, what in the world could England do—what could you Americans do to keep the French from acquiring domination of Europe virtually in their grasp at this hour? England dare not undertake war against France for the United States there is an old German saying: 'You can slide down my back,' which being interpreted into your slang, might be 'You can slide down my back.'"

"As one who likes to look privately into the face, I cannot blame France for seeking to dominate Europe. It is the old French policy of militarism, conquest and imperialism. France is not going to allow the United States or Great Britain to interfere with this policy—not even for the sake of the pounds and dollars France owes to them."

NATIONAL AND STATE HEADS OF LEGION

COLONEL OWSLEY AND COMMANDER DOYLE

The national commander of the American Legion, at left, on his visit to the New England department, was especially warmly greeted in Lawrence, where he was accompanied by State Commander W. H. Doyle and staff. His busy program in Boston today included lunch with Governor Cox and a reception at City Hall.

FRY GETS STAY IN FIGHTS DECISION NEW EVIDENCE ON AUNT'S WILL

Portland, Me., Jan. 30.—Ralph A. Fry, former Federal marshall officer convicted of extortion, today appeared in United States District Court in connection with the filing of exceptions to the finding of guilty.

Through his counsel, Judge Bennett Mayer and William R. Putnam, he appealed for permission to present additional evidence for consideration by the United States Circuit Court of Appeals.

Judge John A. Peters granted the request. This will mean an indefinite delay before the case goes to this court.

United States Attorney Dyer said that Fry may, if he desires, withdraw this appeal any time and appear in the District Court for sentence. He is out on bail of \$1,000.

OPERA SCENERY TIED UP BY U. S.

Baltimore, Jan. 30.—All the scenery and many of the costumes for the German opera to be given here this week by the Wagnerian Opera Festival Company are tied up in the customs house in New York.

"The 'Meisterlanger' goes on tomorrow night. Late last night there was no 'Meisterlanger' scenery within twenty miles of Baltimore."

"But it will be here," said William A. Albrecht, the manager. "It will be in place in time for the opening if we have to put a thousand men and men to work at it."

He said customs authorities required a bond to insure the return of the scenery and costumes to Germany when the tour ends.

PARIS—Harold F. McCormick, who was recently operated upon for appendicitis, and Genna Watkins, will sail for New York tomorrow.

OWSLEY LAIDS STATE ON CARE OF VETERANS

Alvin M. Owsley, national commander of the American Legion, expressed himself as greatly pleased with the work that Boston and Massachusetts are doing for ex-servicemen after he had been shown about the Disabled Ex-Servicemen's Exchange, at Berkeley and Boylston streets, today.

Mrs. Clarence R. Edwards, wife of the former commander of the First Corps Area, explained the workings of the Exchange to Colonel Owsley.

He was visited at the Hotel Copely Plaza by the French Consul, J. C. Joseph Flamand.

At noon he was the guest of Governor Cox and William H. Doyle, the state commander of the Legion, at a luncheon at the Copely Plaza.

In the afternoon he was scheduled to receive the greetings of the city from Acting Mayor Heikley at City Hall and to address a large body of ex-servicemen at Lyceum Hall, East Boston.

At 4 p. m. he was to be the guest of honor at a banquet in Ford Hall and later he was to visit the Malden Lodge of Elks.

Commander Owsley, in his first public address in New England, at the Malden Armory, where he was the guest of the Malden Legionnaires, said that the Legion, who behind the French invasion of the Ruhr, that France marched into Germany as the last resort to make the Tuosine pay reparations.

Upon his arrival in Boston from Providence, Commander Owsley was escorted to the State House and was welcomed to Boston by prominent Legionnaires.

He was to the Copely Plaza, the commander visited to Malden and to Lawrence, returning to Boston later.

Min Irene M. Hubert

Mrs. Hubert alleges that Burton J. Baldwin, the sole beneficiary under the will of her aunt, Mrs. Amanda S. Muenchinger of this city.

Mrs. Hubert alleges that Baldwin, who was a former business partner of the dead woman, employed undue influence to induce her to leave her \$100,000 estate to him.

The only provision made for the piece under the will as it now stands is in the form of an allowance to be paid during the latter's minority.

HOW MUSSOLINI CUTS EXPENSES

Washington, Jan. 30 (By the Associated Press).—Provision of sweeping reforms by Premier Mussolini to make Italy's budget balance are contained in a report received in Washington from Rome.

Measures relating to taxation seek to encourage an influx of foreign capital by removing the existing twenty-five per cent. tax on loans or bonds raised abroad.

The Italian Civil Service is being sharply cut. Drastic reforms are planned in the state railways, where no less than forty thousand employees are to be dismissed and the eight-hour day is to be one of eight of effective working hours.

FLIER, BLINDED BY COLD, DROPS 3 MILES; SAFE

Maar, Conn., Jan. 30.—The thrilling story of the miraculous escape from death of Lieutenant James H. Summers, pilot of the First Pursuit Group, who lost control of his machine while flying at 15,000 feet in a temperature of twenty degrees below zero, was told today by his comrades.

Summers was maneuvering over Canton territory with a squadron from Selfridge field. His engine failed frozen by the severe cold. Summers fell more than three miles in a half-conscious condition before comparative moderate temperature brought him to his senses at an altitude of 400 feet.

At that height Summers regained control and glided to the ground unhurt.

NEAR RIFT OVER CAPS AND GOWNS

For fifty-four years Tech students have received degrees at commencement without wearing caps and gowns, and a meeting to discuss a vote of the old order, attended by 300 senior students in Eastman Hall, nearly ended in a riot.

A vote was to have been taken, but because of the bitter controversy, it was decided to postpone it. Holt Payne Shaw, president of the class, was accused by those opposing the donning of mortar board caps and black robes, of attempting to stifle opposition.

LARKIN GOING TO AID DE VALERA

New York, Jan. 30.—"Jim" Larkin, who recently was pardoned by Governor Smith while serving at Sing Sing for criminal anarchy, will sail for Ireland shortly to lend his support to the Valera and the Irish Republicans, his friends announce.

Saved Her Money

KATHERINE MACDONALD

Recently quite content after twenty-two productions, she has saved a fortune, but denies she is too well.

WORKMAN BURNED AT ELECTRIC PLANT

J. H. Landry, fifty-one years old, of No. 102 Green street, Jamaica Plain, was badly burned and shocked while at work in the plant of the London Electric Company at Concord dock. He was removed to the East Boston Relief Station, where both hands were found to have been burned severely.

MOVIE BEAUTY, GIRL SLUGGED WEALTHY NOW, BY YOUTH IN SOMERVILLE

Katherine MacDonald has retired from the movies. Declared the most beautiful woman in America, she completed her last picture on Saturday night. Today her retirement was announced.

Rumor in Hollywood has had it for some time now that she is planning to be married. This, however, Miss MacDonald denies.

"My plans are uncertain," she declared, "and I do not know whether I shall leave Los Angeles or not."

"As for taking unto myself a husband that lies in the future—the far future, I am sure. Still, one never can tell," she added naively. "Travis, charming may come along when he's the least expected. But I can truthfully say that he has not yet arrived."

When the cameras ceased grinding on Saturday night, Miss MacDonald ended an unusual career. This was begun as it was ended, under a single producer, H. P. Schallberg. She appeared in twenty-two productions in all. Her salary has been extremely high and her savings are said to be enormous.

A "boy slugging" is sought by the police today. When arrested—Somerville police say his arrest is imminent—he will be charged with assaulting Miss Beatrice H. O'Rourke, twenty years old, of No. 44 Heath street, Somerville.

The boy accused her in Foster street as she neared Brewster street. Miss O'Rourke told the police. He said nothing, but snatched her over the head with a blunt instrument. He hit her again and she fell.

Her screams attracted Everett K. Miller and John Gallagher, red dents of the Winter Hill district.

They ran to the scene and the young chaperon fled. Miss O'Rourke noticed, she said, that her assailant wore knickerbockers and was approximately fifteen years old. She was unable to advance any reason for the attack.

WOMEN ARE MADE CITIZENS BY NEW LAW

The first woman in New England to become a citizen of the United States under the Married Women's Act was Mrs. Ella Burtis Phipps of Central street, West Acton, and Mrs. Arthur Mary Phipps of Glen road, Weymouth. The act allows married women to become naturalized citizens irrespective of the nationality of their husbands. Both women took the oath before Federal Judge James M. Norton, Jr., in Naturalization Court.

Mrs. Phipps is the wife of C. Adams Phipps, a Canadian. For some years she has been employed as bookkeeper here. Mrs. Phipps is the wife of Otto Phipps, who is a citizen of Nova Scotia. Chief Naturalization Examiner James Farrell passed both women.

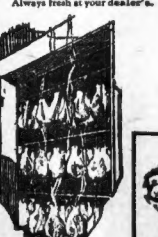

For Sixty Years the Ferris "Ten Factors of Flavor" Have Produced These Delicious Hams

1. Fresh hams selected from America's choicest stock.
2. Secret old-fashioned curing syrup based upon granulated white sugar and pure table salt.

Slow grandfather method of curing.

3. Grandfather method of curing from the outside only. Balmore is not injected into hams to hasten process.
4. Time is no object. Flavor is supreme consideration.
5. Smoked slowly over aromatic green hickory wood.
6. Excess moisture removed. Perfect proportion of meat and juice. You don't pay for water.
7. Dozens of inspections. Government is only half as severe as Ferris.
8. All Ferris hams cured under one roof, under the personal supervision of Ferris executives.
9. Protected against handling by parchment paper and special wrapping.
10. Shipped only a few at a time. Always fresh at your dealer's.

Ordered to the Ferris ham from your grocery store.

The Aroma Alone Tells You It's Ferris Ham!

Just to smell it sizzling and popping in the kitchen is enough to tell you there's baked Ferris Ham for dinner. There is no aroma like it—no bouquet so rich and full and delightfully appetizing.

And when you slide it out of the oven, it's even more tempting. A gem of succulent tenderness and running juices blanketed in a golden brown crust of crackling goodness!

Only the Ferris "Ten Factors of Flavor" discovered over sixty years ago, can produce such an irresistible food.

And the curing is done so carefully and slowly. A Ferris Ham may steep for seven or eight weeks in our secret curing liquid before it satisfies our demands. It isn't finished until it is right!

Then over the aromatic smoke of green hickory these hams are given their delightful nut-like flavor and colored their deep autumnal brown. But these are only a few of the Ferris "Ten Factors". All along the line each ham is watched and inspected; each finished ham is protected with heavy parchment and burlap; and only a few are shipped at a time, so when you buy one it is really fresh cured for you.

Get a Ferris Ham tomorrow—whole or half. Boil it, bake it, or roast it and give the family a holiday dinner.

FERRIS HAM

"The old-fashioned flavor that's always new!"

Try them baked:
Wash SUNSWEET PRUNES, cover with warm water and soak over night. Bake in a casserole in a slow oven using same water fruit was soaked in. Cook until tender. No sugar is required. Serve plain or add boiled custard sauce or whipped cream. Fine for breakfast or dessert!

Ask your grocer for Sunsweet Prunes in the new 2-lb. carton, and send for the Sunsweet Recipe Packet—free! California Prune & Apricot Growers Association, 200 Market Street, San Jose, Cal.
M. R. McCANDLESS & CO., 131 State St., Boston, Mass.—New England Selling Agents

STUDENT PAIR IN SECRET WEDDING

MRS. ROBERT H. PARK
Conservatory of Music student, who was Merriam Helenus of Quincy, she was secretly wedded to Robert H. Park, a Tech senior, three weeks ago. Both will continue their studies.

CARGO OF RUM IS SEIZED AT NANTASKET

Part of the rich cargo of the South Shore rum fleet was seized, say prohibition officers, in the Gun Hook House, Green Hill, Nantasket. Nearly 200 cases of choice liquor were confiscated.

One man was left in charge of the Green Hill haul and a squad of officers rushed to Scituate on receipt of information that the whiskey runners had planned another landing there. The officers walked the beach for miles, but the runners were not found.

VALUED AT \$40,000.
The liquor seized at Green Hill is valued at more than \$40,000. According to prohibition officers, the contraband was landed, together with six cases not yet unearthed, by the "delivery crew" of a rum ship hovering off Minor's Light.

The small boat of the rum runners then proceeded to Scituate and made a second delivery. It was this cargo that the Scituate expedition had as its objective. The seizure of Bahama rum was discussed in the National House by Representative John Rogers of Massachusetts, twice the Republican member of the Committee on Foreign Affairs.

This traffic is commensurate with the knowledge and appropriation of the officials of the Bahamas, who are growing rich in the trade, according to the legislation.

"I have been advised by the Department of State that 5,000,000 gallons of liquor have been smuggled into the United States from the Bahamas since the prohibition act became what is called effective," he declared. "The traffic is at its height now and the government of the island is deriving immense revenue from it, a revenue which there seems to be no public sentiment."

WARMER WEATHER IS ON HUB SCHEDULE
"Glowing climate temperature" is listed in the official forecast for the next fortnight as below. The trend will be more pronounced to merrier than today.

"It will snow again tomorrow night if the predictions come true. Today is not the coldest day of the year, and none to the contrary. It was 5 above at 6 o'clock this morning; the wind was from the north."

The coldest spot was at Calgary, where it registered 15 below. The coldest spot in New England was Greenfield, Me., 6 below. Nantasket was 10 below.

The marriage of a Tech senior and a talented New England Conservatory of Music student became known today. The bridegroom is Robert H. Park of Wollaston, and his bride is the former Merriam Helenus of Quincy. The ceremony was performed Saturday, January 4, in the home of the bridegroom's brother, Edward C. Park, of Wollaston, Rev. Charles Page, pastor of the Wesleyan Methodist Episcopal church, officiated.

The couple had planned to withhold announcement of the marriage until after their graduations. The ceremony was performed Saturday, January 4, in the home of the bridegroom's brother, Edward C. Park, of Wollaston, Rev. Charles Page, pastor of the Wesleyan Methodist Episcopal church, officiated.

The couple lived at No. 115 North street until Monday. They are now residing at the Quincy house of the bride's parents.

Mrs. Park is twenty-two years old, the same age as her husband. She will complete a three-year music course in June. Her husband will be graduated from M. T. T. the same month. He is the son of Professor R. E. Park of the University of Chicago and is studying electrical engineering.

The young couple plan to live in Chicago.

**BILL WILL CHECK
FAULTY WARRANTS**
Augusta, Me., Jan. 20.—Governor Percival P. Baxter announced today that he proposes to present a bill to the Legislature at the present session, making it possible for courts to correct technical or clerical errors in warrants to prevent criminals from escaping punishment on technical grounds.

In a letter to county attorneys he said one of the discouraging duties of prosecuting officers is the large number of warrants thrown out of court on account of being defective.

He suggested they could render a service by checking up on warrants, trial justices and municipal judges in their counties and going over this matter with them.

**FIFTY LODGERS FLEE
FIRE IN SOUTH END**
A \$5,000 blaze in a lodging house at No. 17 Harwich street, South End, forced fifty persons to flee to the street when flames broke out from the kitchen at 10 o'clock.

The flames started in a three-story of the four-story wooden dwelling when a fire in the kitchen broke out. The fire was quickly extinguished by the fire department. The fire was caused by a gas stove.

DRUG RING RECRUITS GARRIBERD'S ROVER

**BEBE DANIELS FAST
REGAINING HEALTH**

We sent one of our investigators to Somerset, Ky., to inspect the affairs of Sigal, the local druggist. This gentleman had, in the eighteen months preceding our investigation, filled a matter of 5,000 prescriptions for morphine, making up, in bulk, a matter of 200 ounces. And you can match the story of Somerset in every State in the union. We have found everywhere villages stricken by this thing. We have examined them in California, New York, Wisconsin and Maine. Each one has gone the same way through doctor and druggist. Main street has gone wrong—Edison Record in Hearst's Magazine.

By WINIFRED BLACK.
Maine street goes wrong—interesting idea, isn't it? We've always thought of morphine and cocaine and heroin as belonging first in the hospitals and clinics and then in the red light district.

Ten; yes, even five years ago, we knew all about hop-heads and dope-fiends. We read about them in the newspapers and we heard about them whenever we interested ourselves in the misery and despair of the slums and the horrors of the vice districts.

We never dreamed that these things would spread into the country like a pestilence. Reach out also to the schools and creep to the very door and inside the door of the plain little homes where the people live who have always been considered the very backbone of the nation.

Read the story of Somerset, Ky.—a story with names, dates, facts and figures—and see what you think about it.

When you're through with Somerset and its almost unbelievable tale, now about Florida, it's coming for drugs.

How about the river towns up and down the San Joaquin—and down the Sacramento? I stood in Walnut Grove on the banks of the Sacramento one quiet Sunday afternoon and watched the cars drive in from the neighboring ranches.

Handsome touring cars with the rich rancher's son and his friends, little rattly-bangs from the small "new places" off the Delta, smart roadsters from the big houses of the people who live in the comfort and luxury of the richest farming country in the world—hired men and their friends in the trucks and delivery wagons, all come to spend Sunday in Devil Town.

And these four of them coming to get what each of them would call a "shot of hop" or a "sniff of joy powder."

It was easy to pick out those who had been using the stuff any length of time. Tall, born in an inheritance of fresh blood and high living, they sought to breed a race of physical, mental and moral giants who they shrink and pale and wither, when they are once in the clutches of "dope."

SOLD TO CHILDREN.
Mary and Kate and Elizabeth and Jim and Tom and Billy they all go to school together and build money in the yard when the air begins to be white with fluttering feathers. The bride's maid has ever found out the truth about this.

One of them showed me a picture of the bride's maid who was the bride had managed to escape some of the worst of the dope.

How hard she tried to cry when she looked at the picture. Poor girl, that's what they called her at home. She was a beauty, but she was a dope addict.

Well, they arrested and convicted the man who sold the dope. He was in prison for a long time. He was a man in "chips" ending ounces of "dope" through the country towns of the United States. In six months he was out of the prison and back in the street.

And she and her cousin are only now getting out of the prison. They were arrested and convicted for selling ounces of "dope" through the country towns of the United States. In six months they were out of the prison and back in the street.

When you're through with Somerset and its almost unbelievable tale, now about Florida, it's coming for drugs.

How about the river towns up and down the San Joaquin—and down the Sacramento? I stood in Walnut Grove on the banks of the Sacramento one quiet Sunday afternoon and watched the cars drive in from the neighboring ranches.

Handsome touring cars with the rich rancher's son and his friends, little rattly-bangs from the small "new places" off the Delta, smart roadsters from the big houses of the people who live in the comfort and luxury of the richest farming country in the world—hired men and their friends in the trucks and delivery wagons, all come to spend Sunday in Devil Town.

And these four of them coming to get what each of them would call a "shot of hop" or a "sniff of joy powder."

It was easy to pick out those who had been using the stuff any length of time. Tall, born in an inheritance of fresh blood and high living, they sought to breed a race of physical, mental and moral giants who they shrink and pale and wither, when they are once in the clutches of "dope."

SOLD TO CHILDREN.
Mary and Kate and Elizabeth and Jim and Tom and Billy they all go to school together and build money in the yard when the air begins to be white with fluttering feathers. The bride's maid has ever found out the truth about this.

One of them showed me a picture of the bride's maid who was the bride had managed to escape some of the worst of the dope.

How hard she tried to cry when she looked at the picture. Poor girl, that's what they called her at home. She was a beauty, but she was a dope addict.

Well, they arrested and convicted the man who sold the dope. He was in prison for a long time. He was a man in "chips" ending ounces of "dope" through the country towns of the United States. In six months he was out of the prison and back in the street.

And she and her cousin are only now getting out of the prison. They were arrested and convicted for selling ounces of "dope" through the country towns of the United States. In six months they were out of the prison and back in the street.

DRUG RING RECRUITS GARRIBERD'S ROVER

**BEBE DANIELS FAST
REGAINING HEALTH**

We sent one of our investigators to Somerset, Ky., to inspect the affairs of Sigal, the local druggist. This gentleman had, in the eighteen months preceding our investigation, filled a matter of 5,000 prescriptions for morphine, making up, in bulk, a matter of 200 ounces. And you can match the story of Somerset in every State in the union. We have found everywhere villages stricken by this thing. We have examined them in California, New York, Wisconsin and Maine. Each one has gone the same way through doctor and druggist. Main street has gone wrong—Edison Record in Hearst's Magazine.

By WINIFRED BLACK.
Maine street goes wrong—interesting idea, isn't it? We've always thought of morphine and cocaine and heroin as belonging first in the hospitals and clinics and then in the red light district.

Ten; yes, even five years ago, we knew all about hop-heads and dope-fiends. We read about them in the newspapers and we heard about them whenever we interested ourselves in the misery and despair of the slums and the horrors of the vice districts.

We never dreamed that these things would spread into the country like a pestilence. Reach out also to the schools and creep to the very door and inside the door of the plain little homes where the people live who have always been considered the very backbone of the nation.

Read the story of Somerset, Ky.—a story with names, dates, facts and figures—and see what you think about it.

When you're through with Somerset and its almost unbelievable tale, now about Florida, it's coming for drugs.

ABE FRIEDMAN FAVORITE FOR BOUT WITH PADDY OWENS

M. E. BANTAM TITLE AT STAKE TONIGHT

By JACK CONWAY.

Abe Friedman, New England bantamweight champion, tomes his title into the ring when he battles Paddy Owens of Cambridge in a ten-round bout at the Armory A. A. show at the Grand Opera House tonight.

It is the most important contest Friedman has engaged in for months. He will be battling with his back against the wall, as it were, and will be obliged to display all of his combative qualities in order to gain the victory.

Owens is on the crest of a victory surge which he feels confident will carry him to a bout with Paddy Owens at the Armory A. A. show at the Grand Opera House tonight.

Friedman has had the experience which should tell him in his drive for Friedman's title. He has quarreled with Abe Attell, Goldstein, Patsy Wallace, and Young Montreal and has blazed his way out front in the pugilistic parade.

Owens is a fast, clever boxer and is also able to score a stinging blow with each hand. He declares he will force the issue from the start and that he is of the opinion that this style of warfare will crush Friedman's fighting spirit.

Friedman may be relied upon to show an abundance of boxing ability. Abe has been training for two weeks and will be in the best condition of his career when he goes to the post this p. m.

Carl Tremaine recently ran out of a bout with Friedman billed for New York. Tremaine apparently figured Abe would knock him out of a bout with Joe Lynch.

Friedman is anxious to win this evening as he is out to get a bout with Villa.

Young Carner of New Bedford will have Freddy Madden of East Boston as an opponent in the semi-final of ten rounds.

Spike Hennessy of Waltham and Mike Mandot of Cambridge will box eight frames, as will Young Caro of the North End and Harold Sullivan of South Boston.

Shavin's Training Quarters Are Open to Public

Eddie Shavin, unlike some of our other high class boxers, does not have in training in private. He arranges for his training in public. He arranges for his training in public. He arranges for his training in public.

P.C. 777

The vice element among our boxing leaders are of the opinion that Shavin will win. Alex McLean, Jackie Williams, Tony Goodwin and many other good judges of boxing affairs seem to think that Shavin's remarkable generosity is too much for any of our other brave welterweights to overcome.

The arena club announces that there are still plenty of good reservations left for the Shavin-Sharkey bout, which will be staged at Mechanics Building Saturday night. It is not believed that the B. A. A. games, which take place on the same evening at Boston Arena, will in any way injure the attendance at the Shavin-Sharkey bout.

Red Chapman, the welterweight featherweight champion, will meet Tom Paine in the semi-final of ten rounds. Chapman was also billed to meet Jack Sharkey at a Panway A. A. show next month, but this match has been called off as Sharkey is suffering from boils and is planning to go to Hot Springs for a rest.

Rocky Smith, one of the heaviest hitters in the welterweight division, will have Young Gould as an opponent in an eight-round preliminary.

BIG FIELD TO SFFK RACQUETS TITLE

New York, Jan. 30.—Beverly tennis will participate in the annual tournament for the National Amateur Doubles Racquets Championship opening here tomorrow.

Clarence C. Pell and Stanley G. McIntire, of New York, the defending champions, have drawn a bye in the first round. Jay Gould, of the Philadelphia Racquet Club, who won the Canadian National Amateur Singles Championship last week, will be paired with Joe W. Warr, of the same club, in the opening round against G. M. Schneider and Frederick T. Frothingham of New York, in the opening round.

Teams are being drawn from Chicago, Boston and Toronto, in addition to New York and Philadelphia.

Bantam Stars Fit for Great Battle

Jack Conway Picks Abe Friedman to Beat Owens

Jack Conway says Abe Friedman will have to put up the greatest fight of his career to win over Paddy Owens at the Armory A. A. show at the Grand Opera House tonight.

"But that's just what Abe is going to do," adds Jack. "The New England bantamweight king has prepared himself carefully for his fight with Owens, and will be in wonderful condition when he goes to the post. He will need to be, for Irish Paddy has been battling like a cyclone whirling."

Jack ventures the information that Harry Greb will win Tommy Loughran in New York tonight. When these two men met in Philadelphia last summer, Loughran finished out front.

"But that was last summer," says Jack. "It will be a different story tonight."

Paddy Owens of Cambridge, as he will shape up in the ring at Armory Club Show at Grand Opera House tonight.

HERZOG DEMANDS THAT HEYDLER CLEAR HIM

By THOMAS L. CUMMINS.

New York, Jan. 30.—The National League will not reopen the "Buck" Herzog case, President Heydler said, replying to published demands by Herzog for an official public whitewashing in his long-standing dispute with Rube Benton.

"We have no quarrel with Herzog," said Heydler. "To our way of thinking, Herzog has been cleared already. As far as the National League is concerned, the case is closed."

Herzog demanded that Heydler make public affidavits, which he declared, he held in his possession, and declared he would fight for years to obtain his rights and vindication.

He holds his resignation has been offered him a bribe to throw a game. President Heydler conducted a secret investigation and then declared there was no grounds for the allegation.

Benton said at the time that Herzog, then a member of the Cubs, offered him money to throw a game while he (Benton) was pitching for the Giants. Herzog said the only reason he could survive for the charge was that while he was manager of the Reds he had fired Benton, then on the team, for fighting.

Another angle in the case was the charge by Herzog that Benton had met money on the crooked World Series of 1919 between the Reds and White Sox in the knowledge that the series was not on the level. This charge was also held by Heydler.

The Reds now want to get Benton from St. Paul in the American Association, where he pitched strong for several seasons. Heydler declared he does not intend to be "sacrificed for anyone to keep Benton in baseball."

Whether or not Benton will play with the Reds or any other big league club is still a matter to be settled. President Ben Johnson of the American League has declared Benton would not be allowed to sign with any club in his circuit, and President Heydler has given the impression that the club owners in the National League do not care to have Benton back.

However, an investigation of the Benton case has been going on, and the whole thing has caused Herzog to come to the front and demand a public vindication.

Herzog declared that Heydler had evidence taken in the secret hours of a 1920 which should be made public for the sake of his name. He said "Heydler has every paper in the case, but he wants to keep the matter secret. He fooled me by having a secret investigation, and I fall for it. But that's over with. The matter is closed."

BROWN OPENS FIRE ON RED CHAPMAN

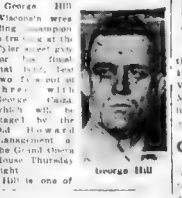

Chick Hayes writes:

"I want Charlie Cardie, manager of Red Chapman, to understand that Newport Johnny Brown is no light weight, and if Chapman finds courage enough to fight him, he will make a weight which is feared by all the fighters in the limit. Why is it that Chapman fought Mickey Travers, Freddie Williams and others at 125 or 135 pounds at 3 o'clock, but as soon as Brown's name is mentioned, he insists that he make 135 ringside, in my opinion, he is using that as a loophole to side step Brown."

Two Basketball Games

The first of the games between the Arlington and Lexington High School girls' basketball will be played this afternoon in the Lexington Town Hall. Winchester plays at Waterville.

HILL SURE HE WILL DEFEAT GALZA

George Hill Watson was the first champion in the history of the Bantamweight division. He was the first champion in the history of the Bantamweight division. He was the first champion in the history of the Bantamweight division.

Gym Exhibition Wednesday

The exhibition of the Bantamweight division will be held at the North Atlantic Y. M. C. A. on Wednesday night.

India Sends First Challenge for Tennis Cup

New York, Jan. 30.—India is the first nation to challenge for the Davis cup, emblem of the world's team tennis championship for 1921.

The formal challenge, which took more than two months to reach this country by mail was received by the United States Lawn Tennis Association.

The United States Lawn Tennis Association, the challenging side, expressed a desire to be drawn in the European zone under the new system of play which provides for five competitive areas: European and Americas with the ultimate winners in each area meeting for the right to challenge the United States, the present cupholder nation.

India made its first appearance in Davis cup play in 1921.

For Hair that won't stay combed

Unruly heads of hair by hundreds of thousands now stay neatly combed all day.

A new product—Stacomb does it in a most effective way. You simply rub on the palms of the hands and then apply to the hair—easy and quick to do.

After applying in the morning, comb your hair any style you like and it will stay combed that way all day. Keeps hair soft, smooth and lustrous.

Thus an old-time fault to your otherwise well dressed appearance is corrected. You end the annoyance of unruly hair.

So effective have been the results of Stacomb that it has become the fastest selling product ever made for the hair.

Ideal After Washing Your Hair

Apply Stacomb after washing your hair, then comb it the way you prefer and it will stay that way, for it replaces the oils washed out.

Dry and brittle hair is unknown to users of Stacomb.

There's a business asset in well combed hair—it is part and parcel of a well dressed man. Stacomb makes certain that part.

Men, women and children all find that Stacomb makes their hair stay combed.

Ask your barber for a Stacomb Rub.

At all druggists. (Not a liquid.)

Stacomb

Makes The Hair Stay Combed

For Sale by all Drug Stores, Department Stores, and Barber Supply Dealers.

Standard Laboratories, Inc., Dept. 1011, 750 Stanford Avenue, Los Angeles, California.

PRINCETON ISSUES TENNIS SCHEDULE

Princeton, N. J., Jan. 30.—An elaborate tennis schedule for the season was announced by Huter V. Hanger, manager of Princeton. Fourteen teams have been arranged or will more than last season. Included in this number is an international match with the combined Oxford-Cambridge team, and a match with the combined Harvard-Yale team.

The season will open with Princeton vs. Harvard at Princeton on March 2. Following this the team will make a Southern tour and engage a number of teams. In the latter part of May the Princeton team will journey to Boston to meet Harvard and M. T. Following is the complete schedule:

March 2—At Boston vs. Harvard (10 miles)
March 12—At Washington vs. Washington (10 miles)
March 22—At Baltimore vs. Baltimore (10 miles)
March 30—At Philadelphia vs. Philadelphia (10 miles)
April 7—At New York vs. New York (10 miles)
April 14—At New York vs. New York (10 miles)
April 21—At New York vs. New York (10 miles)
April 28—At New York vs. New York (10 miles)
May 5—At New York vs. New York (10 miles)
May 12—At New York vs. New York (10 miles)
May 19—At New York vs. New York (10 miles)
May 26—At New York vs. New York (10 miles)
June 2—At New York vs. New York (10 miles)
June 9—At New York vs. New York (10 miles)
June 16—At New York vs. New York (10 miles)
June 23—At New York vs. New York (10 miles)
June 30—At New York vs. New York (10 miles)
July 7—At New York vs. New York (10 miles)
July 14—At New York vs. New York (10 miles)
July 21—At New York vs. New York (10 miles)
July 28—At New York vs. New York (10 miles)
August 4—At New York vs. New York (10 miles)
August 11—At New York vs. New York (10 miles)
August 18—At New York vs. New York (10 miles)
August 25—At New York vs. New York (10 miles)
September 1—At New York vs. New York (10 miles)
September 8—At New York vs. New York (10 miles)
September 15—At New York vs. New York (10 miles)
September 22—At New York vs. New York (10 miles)
September 29—At New York vs. New York (10 miles)
October 6—At New York vs. New York (10 miles)
October 13—At New York vs. New York (10 miles)
October 20—At New York vs. New York (10 miles)
October 27—At New York vs. New York (10 miles)
November 3—At New York vs. New York (10 miles)
November 10—At New York vs. New York (10 miles)
November 17—At New York vs. New York (10 miles)
November 24—At New York vs. New York (10 miles)
December 1—At New York vs. New York (10 miles)

HARRY GREB MAKES GO WITH LOUGHRAN

New York, Jan. 30.—Harry Greb of Pittsburgh, American light heavyweight champion, will defend the crown against Tommy Loughran of Philadelphia in a 15-round bout at Madison Square Garden.

This is the "Pittsburgh Golden Mile" first appearance since he won the crown from Gene Tunney, and the first championship match of the year in the great arena.

JIMMY O'CONNELL SIGNS WITH GIANTS

San Francisco, Cal., Jan. 30.—Jimmy O'Connell, recently purchased from the San Francisco Giants by the New York Giants, has formally accepted the transfer and has signed and mailed his contract to John J. McGraw of the Nationals, according to word given the New York Times by O'Connell's manager.

AMERICAN'S TWO PAGES OF LAUGHTER

The statistician who recently compiled a list of men who work with their hands left out the names of several thousand poker players.

He always says
My street car fare.

Boston stands to me as the type, the acme of the industrial life of this generation.—Bishop William Lawrence.

Dr. Copeland Shocks the Bankers

But a Heterogeneous Army Is a Poor One

Copyright, 1922, Star Company

Bankers of New York State were enjoying a pleasant dinner talking "safety, prosperity," etc., when Dr. Copeland, just elected United States Senator, injected these crumpled rose leaves of thought: "You don't realize the amount of discontent in this country. That discontent only needs leadership. I, myself, could raise an army."

He said the people lack coal because railroads have locomotives that break down and can't haul the coal. Railroad owners had admitted it.

One thing to comfort you before you worry about "an army of discontent." It wouldn't be like such an army in Italy, or France, or Russia, all of one kind. Here in that army you would have all kinds of notions and all kinds of conflicting interests. The army might soon be too busy fighting itself to worry anybody else.

What will interest bankers more than Senator Copeland's forebodings is the statement of Reginald McKenna, former Chancellor of the British Empire, that the pound sterling is bound to rise and the American dollar is bound to go down. Mr. McKenna informs American bankers (their own government never told them apparently) that in 1920 and 1921 the United States adopted "deflationary methods in concert with our own English financial authorities."

American business men were not allowed to know that this country was deflating in concert with British financial authorities.

There was pretty violent deflation here, and it ruined a good many men suddenly. It helped a few probably.

Active Mussolini

He Is Getting Rid of the Old

Copyright, 1922, Star Company

Mussolini, dictator of Italy, is not an idle person. He is not afraid to try new things. He means to give Italy free trade. That experiment will be watched closely. He thinks it will put up Italian exchange and stimulate business.

Mussolini is outting down the number of public employees and discharging all men of sixty-five and older. THIS is a day and HIS is a government of young men, but sending off ALL men of sixty-five seems a little queer. Here in America it takes a man about sixty years really to know his business. At that AGE he may not be so good for PRODUCTION, but he is better for management and for counsel.

However, Mussolini knows what his young people want and what is more important, he is boss for the moment.

A \$255,000,000 Bill

How Much Would You Give for It?

Copyright, 1922, Star Company

Germany "owes" the United States two hundred and fifty-five million dollars, for our expenses in unlesingly keeping our troops on the Rhine. The question is, "Will the allies decide to pay us that money out of what they take from Germany?" What do YOU think? What would you give for Uncle Sam's check—ten-thousandth part of 1 per cent? That would be a big offer.

Up to the first of last August Germany had paid two thousand million dollars in gold by way of indemnity. And every dollar of that vast sum has been spent for foreign troops on German soil, for no good purpose whatever.

Wretched Coal Situation

Fuel at Exorbitant Rates Said to Contain More Than 30 Per Cent. Rock

Those responsible for our wretched coal situation are not content with their failure to give us coal when we need it, although nature has been so bountiful in supplying it to us. They are not even content with charging us exorbitant prices for the little they give us, but they insist upon adding insult to injury, and then more injury, by giving us, so it is alleged, more than 30 per cent. of rock and iron and slag, blackened only by the powder of coal and charging for it the present extortionate prices charged for the best coal.

If it is true that more than 30 per cent. of the "coal" we are now receiving is "fireproof" then our coal is costing us about \$26 or \$27 per ton. It is costing us even more than this price, for we have to watch it. It clogs up our furnace grates. It destroys our furnaces and it involves labor, great physical exertion to keep the grate clean, not only to save the grates, but to produce a draft.

It is apparent that the coal operators are putting upon the railroad cars the old dumps which were not coal, but which were blackened stone and iron ore. It is a deliberate, willful, inexcusable swindle. Every day our courts are sending poor men away for petty stealing or for some other petty offense, tearing them away from their families and sending them to hard labor in prison, disgracing their little children and their wives, their mothers and fathers, and yet we do nothing with these coal thieves who are stealing from us scores of millions of dollars. This is American justice for you!

But some day the gentlemen who own the good things in life and who are never satisfied until they have taken away even the little that others have will wake up to find that the patience of the American people has been exhausted, that they have grown angry. Then it will be too late, and then the deluge will have come, and they will find themselves as the slave owners found themselves, as the Russian oppressors found themselves and as the French oppressors in 1793 found themselves—helpless before the wrath of a people who have no time, no opportunity and no disposition to discriminate. The tragedy will be for the honest possessor as well as for the dishonest, and that is the pity of it. But the honest possessor will not be without fault. Although he will not be actually responsible, yet he will be passively responsible, for if every man who honestly possesses the good things of life would remember the danger of permitting the active, aggressive, exploiter to have his way with the great masses of the people, things would be different and safe.

WINIFRED BLACK ON SUCCESS

By Winifred Black

EDWARD A. FLENE says:

"From my long experience in hiring and firing, the comforting truth has come to me that the average young man really has as good a chance, and even a better chance to succeed, than the better called genius or specially-favored one, provided that the average young man realize that success must be fully paid for just as anything else one wants must be paid for."

Interesting idea, isn't it?

True—why, of course, it's true.

Genius Is His All

Geniuses aren't thinking about success or even about failure. They're thinking about getting their own genius in particular, and genius is generally what they don't care to whether they succeed or fail as far as money or the good opinion of the world is concerned. That's what makes a genius—a genius.

The rest of us bicker and bargain. We pay so much for so much. We love deeply enough, but not too deeply. We hate as long as it's comfortable, and a second longer. We work when we have to and rest whenever we can.

Genius is not like that. Genius loves and hates and forgives and forgets—while the average man is striving and trying to get the manager of his firm to realize that he ought to get a raise by the end of six months, anyhow.

Genius walks through the pades and never even knows there's a drop of water anywhere, outside of the clouds.

Work Is Play

Genius flames and chills. It warms and comforts and it freezes and antagonizes—but it's always busy and it's always "on the job."

Geniuses don't know the meaning of the word "work" and they play to them when it's along their own special line, and they don't care whether it's practical or impractical, and nine times out of ten they are right.

Genius by sight is a man who is a genius in one and catches him and ties him up with a contract of partnership or something, and gets all the fruits of the genius' labor, except the fun and the misery, the disgrace and the glory of being a genius.

It's a good thing, the genius doesn't care much for success—

Private Judgment

Editor Boston American:

Kindly extend my courtesy by inserting the following in your column, relative to the conspicuous figure on the present theological horizon, the Rev. Percy S. Grant. I assert it to be some obscure, indigent clergyman, he should be pook-poked and laughed out of the ministry as a rattle-headed freak, not essentially by his confederates in religion but by laymen, the unsectarian spectators. But Rev. Mr. Grant has the embellished, elaborate background of social prestige and fashionable credit to hold his picture in the frame and enhance his potential influence in the community. Speaking impartially, and from an unsectarian standpoint, it seems the only reprehensible conduct on Rev. Mr. Grant's part was to a further extension and more latitude with that instrument of "private judgment" which seems to be the official palladium and prerogative of the Protestant religion. Daringly speaking, Rev. Grant wishes to translate "liberty into its abnormal correlative, 'liberalism.'" If Mr. Grant is to be indicted on a heresy charge, his conduct being held in contradiction to ecclesiastical law (orthodoxy), I cannot see where he violates the ethics of his ministry, inasmuch that private judgment or the rejection of ecclesiastical authority is a fundamental principle of the Protestant Reformation. It may be rationalism, but what is private judgment but rationalism supplanting faith and rejecting all authority and mysteries?

BENNETT WATSON.

THE HELPING HAND

Do Not Include Stamps, Letters Will Not Be Answered Personally

Shirts for Needy

Editor Helping Hand: We have a number of \$1.00 and \$2.00 shirts and will gladly send Mrs. G. T. free of charge. Also have men's shirts we can send needy mother who wanted them to make dresses for her little ones. MRS. W. E. T. ED. NOTE—Mrs. W. E. T. will be given the address of Mrs. G. T.

Braided Rugs

Editor Helping Hand: I received in Helping Hand column a few days ago of a lady who wanted a house for twenty-five dollars a month. I have an upper portion of my house that I would gladly let her have.

ED. NOTE—The address of Mrs. W. E. T. will be forwarded to Mrs. F. N. J.

A Home Offered

Editor Helping Hand: I received in Helping Hand column a few days ago of a lady who wanted a house for twenty-five dollars a month. I have an upper portion of my house that I would gladly let her have.

WORDS FROM THE LIPS OF WISE MEN

It is more disgraceful to suspect our friends than to be deceived by them.

None so much resembles an honest man as a shrewdascal.

When any citizen has been suffered the first thing to be remembered is, how much has been suffered.

Of all the passions, jealousy is the one which exacts the hardest service and pays the blindest wages.

The first degree of folly is to think one's self wise, the next to tell others so, the third to despise all counsel.

Loveless needs not the force of eloquence, but to whom undomestic adorns the most.

'Tis not in mortals to command success.

But we'll do more, Senaprolis—will deserve it.

Addis.

He who has a soul wholly devoid of gratitude should not be allowed to learn of his body, for all the parts of that minister to one another.

Consult apocryphal is like rats after harvest.

British Boy Is Fancy Dresser

LONDON, Jan. 29.—In sartorial elegance the next generation of schoolboys is likely to be one of them. Says the Daily Mail, it is the opinion of London's best tailors and boys' outfitters are any judge.

Modern tailors say they find that in many cases the up-to-date schoolboy is more exacting than his father. He insists that his jacket and pants should be cut in the latest style, and the old idea of leaving plenty of room for growing is dead and buried.

The leading tailors' organs think that this fastidiousness on the part of modern youth is all to the good. "A boy who is able to decide for himself on such matters at an early age should," thinks the periodical, "be able before long to decide what is correct when grappling with the bigger problems of life."

CHANTICLEER CROWS WHILE THE WORLD IS SILENT

By Herbert Kaufman

UNS before Essen, cook of the walk crows from the Paris press, marching crowds in the streets of Antwerp singing, "On to Berlin." Poor, half-patched, old Humpty Europe is teetering on the wall again.

Meanwhile, taciturnity in the world's high places. Diplomatic curtains are all down. Behind the scenes, Premiers and Presidents secretly exchange views and study cues.

Unfounded rumors of British protest against isolating the Ruhr, but still no official word on the German situation from Washington or London or Petrograd or Tokio.

Still silence from that busted dust, the League of Nations, as it abandons a mare's nest to Chanticleer Poincare and watches him straddle a bad egg.

At Lausanne, delegates to the conference admit failure and predict war in the East.

That's how the map looks this afternoon.

A Billion Messengers of Prosperity

Matters look far better at home. Postoffice officials say that they'll have no deficit this year. The department operated at a sixty-million-dollar loss in 1922. The loss came out of your pocket.

We used a billion more stamps in the last six months. Stamps, remember, are the messenger boys of trade. They run around the country with buying and selling orders, carrying catalogues and spreading confidence. Prosperity travels in heavy mail sacks.

You'll note that European nations aren't printing more stamps. There, presses are mainly stamping the life out of local money.

If an American army goes back to Europe the American dollar will go to the devil at the same time.

We'd better keep our wealth for the wars of business, while they go broke yonder at the business of war.

Mr. Herrick Still Presents the Bill

It cost you exactly \$256,000,000 to maintain General Allen's outfit on the Rhine. Two hundred and fifty-six million dollars was recently more than a fourth of the annual congressional budget.

According to the Versailles treaty, that quarter of a billion holds priority over all general reparations. France, Great Britain and Belgium, under the same agreement, have received back their outlays for forces of occupation.

Ambassador Herrick still presents our bill. We are not pressing for the debt, nor for the vast sums generously loaned to late allies, but if Europe continues to pour vitality and funds into maelstroms of hate and destruction, we must collect.

Providing for the defence of civilization is one thing—furnishing the expenses of demoralization is quite another.

Of Kings and Queens and National Anthems

While her retinue wanders penniless through the streets of Naples, former Queen Sophie of Greece, an exile in Italy, reads the black horizon and counts the four pitance upon which she and her daughters must somehow contrive to live.

Zita, so lately Empress of mighty Austria-Hungary, finds herself unable to support even a castle in Spain. Uneasy, too, rests the head without a crown.

Yet Captain Henry Stewart Wheatley-Crowe tells us that Kings are God's anointed and promises the entry of a new party in the next British elections to fight for an enlargement of royal authority and prerogative.

If the last of the Georges, probably so in several senses, is also riding horizons—his shadow should be exceedingly pleased to hold Buckingham Palace and present perquisites.

England is revising the Ten Commandments and the Book of Common Prayer. No telling but what she may revise the national anthem. Peoples aren't very enthusiastic nowadays about God saving Kings.

Ten Million Rubles for a Cat

Somewhat different from the time of Catherine the Great, who rode through Russia past villages, veritable movie setups, constructed over night along her line of march, to prove that all her subjects were prosperous and happy folk in cozy homes and living on the fat of the land.

The fat has gone from those lands—even the cats. Famines have eaten them and now following other blights come a plague of rats and mice. Entire provinces behold their piteous stores of grain ravaged by vermin. Cats cost ten million rubles apiece and their kittens five.

That's where some of our money should be spent; some of the money Poincare is using to fill the gap between the twenty-eight thousand tons of coal his bayonets mined and the seven hundred and fifty thousand tons delivered by German picks in an equal number of days.

The Real Defence of Civilization

Our own South has a pressing need for part of these unpaid debts. Unless assistance is rushed to the cotton plantations they will vanish as chestnut trees have disappeared before the gyp mill moth. Boll weevil is out of hand, constantly expanding its area—devouring more fields every year.

Civilization is advised to drop the sword and fight pests, microbes and waste, the common foes of all humanity and progress.

There are wealths of Golconda in refuse and tallings. Look at what is being done in Nevada with the abandoned ore of the Comstock and other great lodes.

Let's have more battles against horrors like cancer or tuberculosis and conquer them as we have just triumphed over leprosy and epilepsy.

Let's wage war on the proflanders who dil poor men's coal bins with painted stones. And on ignorance and usury and dope.

Let our dark be a building force. A refuge for oppression, a light in dark places, a vaquisher of blights and a servant of justice.

That's what defending civilization really means.
